NEXUS GOLD CORP.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
THREE AND NINE MONTHS ENDED OCTOBER 31, 2020 AND 2019
Expressed in Canadian Dollars

1. NATURE AND CONTINUANCE OF OPERATIONS

Nexus Gold Corp. (the “Company”) incorporated under the Business Corporations Act of British Columbia on May 7, 2009, is a public company listed on the TSX Venture Exchange (the “TSXV”) and trades under the symbol NXS. The Company also trades under the ticker symbol “NXXGF” in the United States. The address of the Company’s corporate office and its principal place of business is 802 - 750 West Pender Street, Vancouver, BC.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The Company does not generate revenues or cash flow from operations to fund its activities and relies on financing raised from the issuance of shares and the support of creditors and related parties.

The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company has no source of operating revenue and has significant cash requirements to meet its administrative overhead and maintain its exploration and evaluation assets. The recoverability of amounts shown for exploration and evaluation assets is dependent on several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of exploration and evaluation assets. The carrying value of the Company's exploration and evaluation assets do not reflect current or future values. The Company has not yet determined whether its exploration and evaluation assets contain economically recoverable ore reserves. The recovery of the amounts comprising exploration and evaluation assets are dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete the exploration and development of those reserves and upon future profitable production or, alternatively, upon the Company's ability to dispose of its interest on an advantageous basis. The Company estimates that additional financing will be required to continue operations over the next 12 months.

These factors form a material uncertainty that may cast significant doubt upon the entity's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include any adjustments related to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting" ("IAS 34"). These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the Company's most recent annual consolidated financial statements for the year ended January 31, 2020, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations by the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed consolidated interim financial statements and should be read in conjunction with those audited combined financial statements.

These condensed consolidated interim financial statements were approved by the Board of Directors of the Company on December 16, 2020.

Basis of presentation

These condensed consolidated interim financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The condensed consolidated interim financial statements are presented in Canadian dollars, which is also the functional currency of the Company and of its subsidiaries.

During the period ended October 31, 2020, the COVID-19 pandemic has caused significant and negative impact to the global financial markets. The Company's exploration activities in West Africa and Canada have not been significantly affected by the pandemic to date. If the Company becomes unable to conduct future exploration activities over the long-term in the future, this may result in a potential material impairment of exploration and evaluation assets. The Company continues to monitor and assess the impact of COVID-19 on its business activities. Currently the potential impact is uncertain, and it is difficult to reliably measure the extent of the effect of the COVID-19 pandemic on future financial results.

Principles of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries, CSR (British Columbia) and Nexus Gold Corp Burkina (Burkina Faso). All significant inter-company balances and transactions have been eliminated upon consolidation.

2. BASIS OF PREPARATION (continued)

Significant accounting estimates and judgments

The preparation of these condensed consolidated interim financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported revenues and expenses during the year.

Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair values

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of cash is determined using level 1 of the fair value hierarchy. The carrying values of the deposit, reclamation bond, accounts payable, and due to related parties approximate their fair values due to the expected maturity of these financial instruments.

Financial instrument risk exposure and risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company considers the fluctuations of financial markets and seeks to minimize potential adverse effects on financial performance.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management process.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

NEXUS GOLD CORP.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
THREE AND NINE MONTHS ENDED OCTOBER 31, 2020 AND 2019
Expressed in Canadian Dollars

Financial instrument risk exposure and risk management (continued)

(a) Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligation. The Company's exposure to credit risk includes cash, commodity tax recoverable, and subscription receivable. The Company manages credit risk, in respect of cash, by placing its cash with a major Canadian financial institution in accordance with the Company's investment policy.

Concentration of credit risk exists with respect to the Company's cash as all amounts are held at a single major Canadian financial institution. The Company's concentration of credit risk and maximum exposure thereto is considered minimal.

The maximum exposure to credit risk is equal to the fair value or carrying value of the financial assets.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in obtaining funds to meet commitments. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities.

Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. The Company is exposed to liquidity risk.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and commodity price risk.

i. Interest rate risk

Some of the Company's accounts payable are subject to interest on unpaid balances.

Financial instrument risk exposure and risk management (continued)

ii. Foreign currency risk

The Company's functional currency is the Canadian dollar; however, exploration costs and property option payments are transacted in US dollars and West African CFA franc. A one percent change in foreign exchange rates will result in an immaterial change to profit or loss.

iii. Commodity price risk

Commodity price risk is the risk that the fair or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company actively monitors commodity price changes and stock market prices to determine the appropriate course of action to be taken by the Company.

Properties in West Africa

Effective April 13, 2018, the Company consolidated its common shares on a 10:1 basis (Note 9) and all references to the number of shares have been updated accordingly in the condensed consolidated interim financial statements. Management and optionors of properties described below agreed not to amend the number of shares to be issued per the option agreements, and the number of shares to be issued will be as stated per original agreements for all properties in West Africa.

Bouboulou Property, Burkina Faso, West Africa

During the year ended January 31, 2017, the Company entered into an option agreement to acquire a 100% interest in the Bouboulou Exploration Permit located in Burkina Faso, West Africa. The agreement was subsequently amended in February 2020.

According to the amended agreement, the Company has an option to acquire up to 75% interest in the property, in consideration for cash payments of US\$500,000 and the issuance of 900,000 common shares of the Company, over a period of three years as follows:

- i) pay US\$10,000 (paid) and issue 50,000 shares (issued at a value of \$2,500);
- ii) pay US\$35,000 (paid) and issue 100,000 shares (issued at a value of \$7,000);
- iii) pay US\$125,000 (paid) and issue 250,000 shares on or before April 5, 2019 (issued at a value of \$30,000);
- iv) issue 250,000 shares on or before May 31, 2020 as amended;
- v) pay US\$150,000 on or before June 30, 2020 as amended;
- vi) issue 250,000 shares on or before August 31, 2020 as amended;
- vii) pay US\$180,000 on or before November 30, 2020 as amended.

Following the acquisition of a 75% interest in the property, the Company will have the option to acquire the remaining 25% interest in the Property through a cash payment of US\$1,000,000 with a 1% NSR remaining with the Optionor.

Rakounga Gold Property, Burkina Faso, West Africa

On July 11, 2017, the Company entered a letter of intent with Belemiyida SA (the "Optionor"), pursuant to which the Company will acquire the right to earn up to 100% interest in the Rakounga Gold Property located in Burkina Faso, West Africa. The agreement was amended in August 2019.

Rakounga Gold Property, Burkina Faso, West Africa (continued)

At any time, following exercise of the option, and until November 30, 2025, subject to the terms of the underlying option agreement, the Optionee will have the right to acquire the remaining 10% interest in the Property in consideration for a one-time cash payment of \$1,000,000.

During the year ended January 31, 2020 management has considered whether the costs capitalized for Rakounga property are recoverable based on the review of future option payments to be made and option payments to be received from the Optionee. Based on the results of this assessment, it was determined that the capitalized costs are not recoverable and as such the related capitalized exploration and evaluation costs have been written-down to \$1, resulting in a write-off of exploration and evaluation assets of \$951,856.

Dakuli II Property, Burkina Faso, West Africa

In 2019, the Company applied to the Ministry of Mines in Burkina Faso to stake Dakuli II claims. During the year ended January 31, 2020 the Company received approval from the Ministry of Mines in Burkina Faso and started exploration work on the property.

Manzour Dayere, Burkina Faso, West Africa

During the year ended January 31, 2020, the Company paid \$4,510 in staking fees to stake Manzour Dayere claims. The Company started exploration work on the property in fiscal 2020.

Niangouela Property, Burkina Faso, West Africa

During the year ended January 31, 2017, the Company entered into an option agreement to acquire a 100% interest in the Niangouela Property located in Burkina Faso, West Africa. To earn a 90% interest, the Company must make the following payments:

- i) pay US\$15,000 (paid) and issue 30,000 common shares (issued at a value of \$2,700) on closing;
- ii) pay US\$15,000 (paid) and issue 70,000 common shares (issued at a value of \$4,550) on or before November 30, 2017;
- iii) pay US\$120,000 (paid) and issue 200,000 common shares (issued at a value of \$24,000) on or before March 4, 2019 as amended and
- iv) pay US\$220,000 and issue 300,000 common shares on or before March 31, 2020 as amended.

Upon earning the 90% interest, the Company has a one-year option to purchase the remaining 10% interest in the property for US\$1,000,000. Upon earning a 100% interest in the property, the Company shall pay the optionor a net smelter returns Royalty ("NSR") of 1%.

of five years. Leasehold improvements as at October 31, 2020 are as follows:

| | Cost | Accumulated amortization | Net book value |
|---|-----------|-----------------------------|----------------|
| Leasehold improvements, January 31, 2020 | \$ 20,010 | \$ 2,001 | \$ 18,009 |
| Amortization | - | 3,002 | \$ 3,002 |
| Leasehold improvements, October 31, 2020 | \$ 20,010 | \$ 5,003 | \$ 15,007 |

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The Company's accounts payable and accrued liabilities consist of:

| | October 31, 2020 | January 31, 2020 |
|---------------------|------------------|------------------|
| Trade payables | \$ 225,009 | \$ 632,564 |
| Accrued liabilities | 63,985 | 56,700 |
| | \$ 288,994 | \$ 689,264 |

During the nine months ended October 31, 2020 the Company settled payables in the amount of \$59,850 by issuing 1,110,790 shares valued at fair market value on the date of issuance at \$60,679. During the nine months ended October 31, 2020 the Company wrote off \$6,158 in payables.

During the year ended January 31, 2020 the Company settled payables in the amount of \$140,563 by issuing shares valued at fair market value on the date of issuance at \$163,438 resulting in a loss of \$22,875. In addition, during the year ended January 31, 2020 the Company wrote off \$58,094 of payables. The net result of the settlement and write-off was a net gain on settlement of accounts payables of \$35,219 which is recognized in the consolidated statement of loss and comprehensive loss.

7. FLOW-THROUGH LIABILITY

Flow-through common shares require the Company to spend an amount equivalent to the proceeds of the issued flow-through common shares on Canadian qualifying exploration expenditures. The Company may be required to indemnify the holders of such shares for any tax and other costs payable by them in the event the Company has not made the required exploration expenditures.

7. FLOW-THROUGH LIABILITY (continued)

During the year ended January 31, 2020, the Company received \$771,350 (2019: \$nil) from the issuance of flow-through units (Note 9). During the nine months ended October 31, 2020, the Company received \$250,000 from the issuance of flow-through units (Note 9). These amounts will

not be available to the Company for future deduction from taxable income as the Company renounced \$1,021,350 in exploration expenditures to the subscribers (2019: \$nil).

The flow-through share premium is an amount reflecting the higher value that flow-through shares were issued to subscribers above the value of non-flow-through shares; and is recorded as a liability until the respective flow-through expenditure commitment has been incurred. During the year ended January 31, 2020 the Company recognized \$113,818 as a flow-through premium liability related to issuances of flow-through shares in fiscal 2020. During the nine months ended October 31, 2020 the Company recognized \$22,727 as a flow-through premium liability related to issuances of flow-through shares during this period.

During the year ended January 31, 2020, the Company incurred \$127,327 and during the nine months ended October 31, 2020 \$459,752 of eligible flow-through expenditures, representing 57% of the total \$1,021,350 flow-through share expenditure commitment. This reduced the premium liability by \$18,793 during the year ended January 31, 2020 and by \$59,696 during the nine months ended October 31, 2020 which was recognized as other income for the period and resulted in the balance of Flow Through premium liability of \$58,058 as at October 31, 2020.

8. RIGHT OF USE ASSET AND LEASE OBLIGATION

Right-of-Use asset represents the Company's right to lease the office space. It is amortized over the term of the lease. During the nine months ended October 31, 2020 \$19,667 (2019 - \$6,556) was recorded in rent expense for amortization of this asset and \$8,511 (2019 - \$3,235) in interest.

Office lease liability represents the Company's obligation to pay office rent during the term of the office lease contract. The Company measures the lease liability at the present value of the lease payments that are not paid at October 31, 2020. The lease payments are discounted using a 10% interest rate which is the Company's estimated incremental borrowing rate.

The following schedule provides details of the lease liability at October 31, 2020 and January 31, 2020:

| | |
|--|----------------|
| Minimum lease payments: | |
| Fiscal year 2020 | \$ 8,357 |
| Fiscal years 2021-2024 | 117,000 |
| Total future minimum lease payments | 125,357 |
| Less: Imputed interest | (21,179) |
| Total lease liability | 104,178 |
| | |
| Less: Current portion | \$ 26,222 |
| Long-term portion of future minimum lease payments | \$ 77,956 |

9. SHARE CAPITAL AND SHARE-BASED PAYMENT RESERVE

11. SEGMENTED INFORMATION

The Company has one operating segment being the exploration of exploration and evaluation of mineral properties. The Company's exploration and evaluation assets are located in Burkina Faso and Canada and this geographic information is disclosed in Note 4.

12. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, and exploration of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. Management considers the Company's capital structure to primarily consist of the components of shareholders' equity.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out

the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the nine months ended October 31, 2020. The Company is not subject to externally imposed capital requirements.

14. SUBSEQUENT EVENTS

Subsequent to the period ended October 31, 2020, the Company closed an initial tranche of a non-brokered private placement through the issuance of 10,369,764 units at a price of \$0.055 per unit for gross proceeds of \$570,337.
